

Amy Jackson

Health and Care Professions Council number: SL29221

Royal College of Speech and Language Therapists
registration number: RC0032507

Personal Profile

Since graduating in 2011, I have worked within in the Local Authority, the NHS and now in the private sector. This has been across a range of settings including nurseries, primary and secondary schools, both mainstream and specialist support, clinics and clients' homes. I have specialist knowledge in the fields of complex communication difficulties, alternative and augmentative communication and feeding and swallowing difficulties.

I feel passionately that children with speech, language and communication needs receive the care and therapy they deserve in a fun, engaging and functional way. Within our team, I support our therapists and assistants with my specialism in motor speech disorders and feeding difficulties. I am a highly organised individual and I pride myself in delivering quality target driven therapy.

Work Experience

ATtherapy - Sept 2017 – Present

Highly Specialist Speech and Language Therapist

I provide detailed assessment, treatment plans and therapy to children and young adults with complex medical, physical and communication difficulties. This includes receptive and expressive language, paper based and electronic alternative and augmentative communication systems (AAC) and social communication skills. I am experienced in working with people with specific or undiagnosed learning difficulties and also those with communication difficulties associated with acquired brain injury.

I also see a range of clients with eating, drinking and swallowing difficulties within their home, schools and residential settings. I utilise my Post Graduate Dysphagia qualification and training in Talk Tools therapy to support our team and our clients with a range of interventions for speech, feeding and oral placement difficulties.

Central Manchester NHS Foundation Trust - Jan 2015 –Sept 2017

Specialist Speech and Language Therapist

Working within two specialist support schools. Providing assessment and treatment to children aged 3-16 with complex physical, medical & learning difficulties and Autistic Spectrum Conditions. I was part of the mainstream and specialist school dysphagia team.
